

# GAS & POWER BUSINESS FORUM 2012

May 11, 2012, Sofia, Bulgaria, Sheraton Sofia Hotel Balkan

Official Sponsors:

Official Partners:

Organized by:

Event Management &  
Official Media Partner:

Electricity will become the pathway to a sustainable energy system. It takes new approaches and new technologies to meet this challenge. How to manage the energy today will determine the kind of world we live in tomorrow.

This Conference will provide up-to-date information on European gas policy and projects and presentations of leading world producers, suppliers, operators and contractors from the energy sector. Questions and answers for innovative products, solutions, and services, unparalleled know-how, and global energy market expertise.

Media Partners:

# GAS & POWER BUSINESS FORUM 2012

## OFFICIAL SPONSORS

### WARTSILA Finland Oy

Wärtsilä is a global leader in complete lifecycle power solutions for the marine and energy markets. By emphasizing technological innovation and total efficiency, Wärtsilä maximizes the environmental and economic performance of the vessels and power plants of its customers.

In 2011, Wärtsilä's net sales totaled EUR 4.2 billion with approximately 18,000 employees. The company has operations in nearly 170 locations in 70 countries around the world. Wärtsilä is listed on the NASDAQ OMX Helsinki, Finland.

### ENERGOREMONT HOLDING

#### Energoremont Holding AD

"Energoemont Holding" is a company with over 40 years of experience in the energy sector, covering a large scope of activities in the gas and power industries. The major areas of specialization are reconstruction, rehabilitation and installation of the main power equipment in all types of power plants and industrial facilities.

"Energoemont Holding" and its affiliate companies are also long standing producers of power equipment, spare parts, and metal structures, both for current repairs and major overhauls. With its rich scientific and technical experience and potential, "Energoemont Holding" JSC is in a position to perform the full range of engineering services: design, manufacture, supply, and erection, and to successfully carry out turn key projects.

# SIEMENS

### SIEMENS

The Energy Sector of Siemens is one of the world's leading suppliers of a wide range of products, solutions and services in the field of energy technology. Siemens enables customers to generate, transmit and distribute electrical power at the highest levels of efficiency. Siemens also helps them produce, convert and transport the primary fuels oil and gas. The company is the only manufacturer worldwide with know-how, products, solutions and key components spanning the entire energy conversion chain.

Siemens Energy has about 82,000 employees worldwide. In fiscal 2011, the Sector generated total revenue of €24.9 billion and profit of €3.9 billion.

## PROGRAM

**08:00-09:00** Welcome Coffee and Registration

**09:00-09:30** Opening Keynote Session and Welcome Speech by Officials

**09:30-10:30** Session I. Natural Gas as Vital Source of Energy

**Moderator: Mr. Nikolay Pavlov, Gas & Power Business Forum 2012**

**Regional Integration of Energy Networks in the Balkan Area**  
Mr. Dimitrios Kardomateas, Director for Strategy, Development & Regulation, DESFA S.A. (Greece); Member of the Board of ENTSOG; Member of the Board of GIE

**The Need for Diversification of Natural Gas Supply in Turkey. Is Turkey key to Europe's Energy Diversification? Nabucco vs. South Stream**

Mr. Ali Tunga, Chairman, Atayol Group of Companies (Turkey)

**The Revithoussa LNG Terminal: an Entry Point to the Greek and South East European Markets**

Dr. Katerina Sardi, Head of Energy Planning and International Affairs, Regulatory Authority for Energy - RAE (Greece)

**Cross-commodity (Gas – Electricity) Trading in Central Europe**

Dr. József Balogh, Head of CEE origination and trading team, EGL AG (Switzerland)

**10:30-11:00** Networking Coffee Break

**11:00-12:30** Session II. Natural Gas Projects

**Moderator: Mr. Atanas Georgiev, Chief Editor, Utilities Magazine & Publics.bg**

**Bulgartransgaz's Infrastructure Projects**

Mr. Kiril Temelkov, Member of the BoD and CEO, Bulgartransgaz EAD (Bulgaria)

**Nabucco – What Makes the Difference**

Christian Dolezal, Head of Communications and Public Affairs, Nabucco Gas Pipeline International GmbH (Austria)

**Trans Adriatic Pipeline Project**

Dr. Lutz Landwehr, Commercial Director, Trans Adriatic Pipeline (Switzerland)

**Cross Border Interconnectors Projects**

Mr. Elio Ruggeri, Head of International Gas Projects and CEO of IGI Poseidon, Edison Spa (Italy)

**Markets and Infrastructure – A Supplier's Perspective**

Mr. Howard Chase, Director of European Government Affairs, BP Europe (Belgium)

**12:30-14:00** Luncheon

**14:00-15:30** Session III. Natural Gas to Power Technologies

**Moderator: Mr. Nikolay Pavlov, Gas & Power Business Forum 2012**

**What is Smart Power Generation?**

Mr. Bengt Håkans, Business Development Manager, Wärtsilä (Finland)

**GE Aeroderivative Gas Turbines for Fast, Efficient and Flexible Power Generation and Grid Services**

Mr. Daniel Minev, Senior Sales Account Manager, Aeroderivative Gas Turbines Central & Eastern Europe, GE Energy (Bulgaria)

**High Efficient Combined Cycle Power Plant Solutions**

Dr. Harald Hedrich, Market Manager Gas Turbines CEE, Energy sector, Oil&Gas Division, Siemens AG (Austria)

**Energoremont - The Challenges of Restructuring and Sustainable Development in the Energy Sector**

Mr. Lazar Petrov, Financial Markets Expert, Energoremont Holding (Bulgaria)

**Natural Gas and Gas Turbines - Clean, Efficient and Flexible Energy**

Mr. Michael Welch, Industry Marketing Manager, Oil & Gas, Siemens Energy Oil & Gas (UK)

**GE Oil & Gas solution for the Gas industry**

Mr. Denis Pyalov, Regional Manager, GE Oil & Gas (Russia)

**15:30-16:00** Networking coffee break

**16:00-17:30** Session IV. Gas & Power Case Studies and Projects

**Moderator: Mr. Petar Tashev, Managing Partner, Public Services Ltd.**

**Hurdles in Financing Crossborder Gas Projects**

Mrs. Anna Rizova, Partner, Wolf Theiss (Bulgaria)

**Current Status and Perspectives for Welding Technologies for Implementation of Transit Gas Pipelines**

Dr. eng. Marin Beloev, President, Consortium KZU Holding Group (Bulgaria)

**Raising the Efficiency of Gas-Fired Power Plants and CCPP**

Mr. Jürgen Venter, Director Sales Double Tube Systems (EMEA), GEA Renzmann & Grünwald GmbH (Germany)

**ContourGlobal's Projects & Solutions**

Mr. Garry Levesley, CEO, TPP ContourGlobal Maritsa East 3 (Bulgaria)

**Reducing Gas Dependency by Consuming in a Better Way: a Working Model for Energy Efficiency Improvements**

Dr. Nicolas Katcharov, CEO, EDF Fenice SpA (Italy)

**Virtual Pipeline**

Mr. Ognyan Pavlov, Manager, CNG Module Systems OOD, general representative of GNC Galileo (Bulgaria)

**Discussion and Official Closing of the Gas & Power Business Forum 2012**

## SPEAKERS

**MR. ALI TUNGA**  
Chairman, Atayol Group of Companies  
(Turkey)

Ali Tunga was born in 1962 in Kayseri, Turkey. He is the Chairman of Atayol Group of Companies. Mr. Tunga holds a Bachelor's degree in Physic Engineering. He is fully engaged with the energy business and the construction sector. He is the owner and founder of the Atayol Group of Companies with more than 1,500 employees headquartered in Istanbul since 1990. Some of the Group Companies are as follows:

Petco Energy Inc., as one of our group companies, operates, as investor or contractor, in the following fields: construction of power plants, cross border natural gas and oil pipelines and oil refineries, electricity distribution and generation and is fully engaged with natural gas and LNG importation activities and renewable energy Projects.

**MRS. ANNA RIZOVA**  
Partner, Wolf Theiss (Bulgaria)

Anna Rizova is a partner with over thirteen years of professional experience. Anna has been involved in major M&A as well as privatization transactions in Bulgaria, assisting clients throughout the whole transactional process including legal due diligence of target companies, transaction structuring, further modifications and execution, drafting of the necessary sets of transactional documents, closing and post-closing matters. She has led many cross-border investment projects and is recognised in particular for her considerable expertise in managing multinational assignments.

In her practice Anna focuses on energy matters and her expertise in the renewable energy sector covers a broad range of matters including risk assessment in the case of non-compliance, financial incentives mechanisms, tariffs formation, connection to the grid, licenses, generation, retail supply, due diligence reports as well as bankability of projects. Anna has led a number of energy and infrastructure projects and has advised key stakeholders, developers and financial institutions on regulatory matters. Anna is currently advising the Bulgarian Energy Holding on the Third Energy Package framework and a leading European commercial bank on the financing of two photovoltaic projects in the country. She has also assisted SunEdison, Spanish Power, EBRD and AES on a number of renewable energy projects in Bulgaria.

**MR. BENGT HÅKANS**  
Business Development Manager, Wärtsilä  
(Finland)

Mr Bengt Hakans is born in 1958 in Finland. He has graduated B.Sc. degree in Engineering. He has worked for Wartsila in the last 19 years in power plants sales organisation. Wartsila is a global leader in complete life-cycle power solutions for the marine and energy markets. By em-

phasising technological innovation and total efficiency, Wartsila maximises the environmental and economic performance of the vessels and power plants of its customers.

In 2011, Wartsila's net sales totalled EUR 4.2 billion with approximately 18,000 employees. The company has operations in nearly 170 locations in 70 countries around the world. Wartsila is listed on the NASDAQ OMX Helsinki, Finland.

**MR. CHRISTIAN DOLEZAL**  
Head of Communications and Public  
Affairs, Nabucco Gas Pipeline International  
GmbH (Austria)

Christian Dolezal is the Head of Communications and Public Affairs for NABUCCO Gas Pipeline International GmbH, a position he has held since 2009. He studied Journalism in Vienna and Paris and Economy in London. Prior to his current assignment he carried out various functions as Spokesperson and Head of Communication in the Austrian Government, the Vienna Chamber of Commerce and OMV Gas & Power, Logistics business. Mr. Dolezal is a member of the Bundesverband Deutscher Pressesprecher and the European Association of Communication Directors (EADC). He has also been lecturing at the University of Applied Sciences in Vienna since 2006.

**MR. DANIEL MINEV**  
Senior Sales Account Manager,  
Aeroderivative Gas Turbines Central &  
Eastern Europe, GE Energy (Bulgaria)

Daniel Minev is a Senior Sales Account Manager of GE Energy's Aeroderivative Gas Turbine Business in Central & Eastern Europe.

Daniel joined GE Energy in August 2005. In his current role, he is responsible for building and managing customer accounts being a primary contact for technical and business issues as well as for developing, implementing and executing Aeroderivative Gas Turbines sales strategy across 16 countries of Central and Eastern Europe. Previously Daniel was managing GE Energy's gas engine sales in Eastern Europe and contributed for the significant growth of this business in the region.

**MR. DENIS V. PYALOV**  
Regional General Manager Eastern Europe,  
Russia & CIS, GE Energy – Oil & Gas –  
Turbomachinery (Russia )

Dennis is Regional General Manager for Eastern Europe, Russia in CIS in charge of sales of GE O&G Turbomachinery division products.

Dennis was born in Moscow, Russia. He is graduated in Applied Mechanics, had a M.E. degree from Moscow Bauman Technical University and a Master degree in Industrial Systems from "Ecole Centrale de Paris" (Paris, France) and "Ecole Centrale de Lyon" (Lyon, France).

Prior to GE Dennis hold several positions in other rotating machinery manufacturers.

**MR. DIMITRIOS KARDOMATEAS**  
**Director for Strategy, Development & Regulation, DESFA S.A. (Greece)**  
**Member of the Board of ENTSOG**  
**Member of the Board of GIE**

Dimitrios Kardomateas is the Head of the Strategy, Development and Regulation Division of the Hellenic Gas Transmission System Operator (DESFA) S.A. He has 6 years experience in process engineering & design of the energy sector (1986-1992) and 20 years experience in strategic planning, technical & economic feasibility studies, financing studies, conceptual design, gas network simulation studies, energy market studies, gas purchase & sale contracts, european & national regulatory framework, etc. first at the Public Gas Corporation of Greece (DEPA) S.A. (1992-2007) and then at DESFA S.A. (2007 – today).

He has served as representative of Greece for the negotiation of the first and second gas directives; he has also served as member of the E.C. Committee for the Trans-European Energy Networks Program.

**MR. ELIO RUGGERI**  
**Head of International Gas Projects and CEO of IGI Poseidon, Edison Spa (Italy)**

Elio Ruggeri graduated in 1996 in Mechanical Engineering - Energy and Thermodynamics from the University of Palermo. After completing a Master's in Business Management at the Università Statale di Milano, in 1998 he joined the Technical Department of

Edison Gas Spa (now Edison Spa). From 2000 he held positions of increasing responsibility in business development, identifying, evaluating and developing new international growth opportunities in the gas business.

In 2004 he became Business Development Manager for the group's international operations. In 2008 he was appointed Project Director for the ITGI and Rosignano LNG projects and Director of Development at IGI Poseidon SA. In 2009 he became CEO of IGI Poseidon SA. In 2010 he became Head of International Gas Interconnections.

**MR. GARRY LEVESLEY**  
**CEO, TPP ContourGlobal Maritsa East 3 (Bulgaria)**  
**Executive Vice President and CEO for Eastern Europe, ContourGlobal (USA)**

Mr. Garry Levesley is the Executive Vice President and CEO for Eastern Europe and the Commonwealth of Independent States at ContourGlobal. In this role, which he started in late 2011, he is responsible for managing some of the largest business units in the company based in this region as well as new business development opportunities. Previously, he served as our Executive Vice President and COO from 2009 to 2011.

Prior to joining ContourGlobal, Garry Levesley served as Chief Operating Officer at the Donbass Fuel & Energy Company ("DTEK"), a large vertically integrated coal mining, electricity generating and electricity supply company based in Ukraine, from 2006 to 2008. Prior to joining DTEK, Garry was at AES Corporation from 1994 to 2006, after several Plant Manager roles with the company from 1999 he served as Regional CEO where he managed a diverse portfolio of large thermal and hydroelectric power plants and distribution companies in the United Kingdom, Kazakhstan, Georgia, Hungary and Ukraine. Garry received a B.S. in Engineering from The Open University, United Kingdom.

**DR. HARALD HEDRICH**  
**Sales Manager Gas Turbines CEE, Energy sector, Oil&Gas Division, Siemens AG (Austria)**

Harald Hedrich was born in May 1961, in Vienna. He studied technical physics at the Technical university of Vienna, graduated with PhD. Dr. Hedrich started working for

Siemens in 1985 as manufacturing engineer, head of incoming inspection.

Dr. Hedrich worked for about 2 years in Switzerland. Back in Austria, he moved to the Automotive sector and was project leader for tire pressure monitoring systems and other projects in the USA and Mexico, where he lived and worked for almost 3 years.

Since more than 10 years Dr. Hedrich is in marketing and sales regarding industrial gas turbines up to 50 MW and power plants based on these turbines. In his actual position as market manager, he is covering Central and Eastern Europe, Israel, and Azerbaijan.

**MR. HOWARD CHASE**  
**Director of European Government Affairs, BP Europe (Belgium)**

Mr. Howard Chase is Director of European Government Affairs for BP Europe based in Brussels and is responsible for relationships between the company and the European Union. Through a career of more than thirty

years with BP, Howard has worked on many major oil and gas development projects worldwide, including in the North Sea, Russia, Azerbaijan, Colombia, Algeria, Vietnam and Angola. Prior to taking up his role in Brussels, he held senior government affairs posts for BP in both Washington DC and in Moscow.

He is a graduate in engineering from the University of Cambridge and later completed management studies programmes in the UK and at Harvard Business School. In addition to his role as Chairman of the Industry Advisory Panel of the Energy Charter Treaty, he is Chairman of the EU Georgia Business Council and a member of the Board of the European American Business Council. He is also a former Chairman of the Foreign Economic Relations Work Group of the European Round Table of Industrialists and was a 'sherpa' to the European Commission High Level Group on Competitiveness, Energy and the Environment.

**DR. JOZSEF BALOGH**  
Head of CEE origination and trading team,  
EGL AG (Switzerland)

Jozsef Balogh had been active in the CEE energy markets since 1992. He is a lawyer by education and started off his career with Clifford Chance, Energy and Natural Resources Team in London. He moved to NM Rothschild in 1994 to privatize the Hungarian gas distribution companies. After this experience, Jozsef completed his Ph.D. at the University of Edinburgh, Faculty of Law. But he never returned to the law profession. Jozsef joined ENRON in 1998 and stayed with this company after the collapse. His ENRON roles included government and regulation, Central European origination and, finally, ENRON Teesside Operation Ltd, where he was working on UK gas and power deals. Jozsef spent the post-ENRON years with various energy traders. Currently, he is the head of the CEE origination and trading team of EGL AG, Switzerland.

**MR. JÜRGEN VENTER**  
Director Sales Double Tube Systems  
(EMEA), GEA Renzmann & Grünwald  
GmbH (Germany)

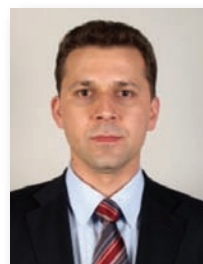

Jürgen Venter was born on 30 April 1958 in Meddersheim, Germany. From 1978 till 1984 he went to University "Technische Hochschule Darmstadt" and finished his degree as "Diplom Wirtschaftsingenieur / Mechanics". After working at two different companies he went to Renzmann & Grünwald GmbH as the leader of the sales department "Special Applications". Since two years his new function is "Sales Director Double Tube Systems (EMEA) at GEA Renzmann & Grünwald GmbH. Working for GEA he developed the double tube safety heat exchanger (dtsx) as a special solution for the oil & gas industry and for the chemical industry. This solution helped to increase the reliability and availability of the plants.

**DR. KATERINA SARDI**  
Head of Energy Planning and International  
Affairs, RAE (Greece)

Dr. Katerina Sardi is the Head of the Energy Planning and International Affairs of the Greek Regulatory Authority for Energy (RAE) with considerable experience on regulatory and technical issues related to natural gas and topics relevant to power production from conventional sources, greenhouse gas emissions trading and the environment. She holds a diploma on Mechanical Engineering from the Aristotle University of Thessaloniki and a PhD on fluid mechanics and combustion from Imperial College London. Prior joining RAE in 2002, she has worked as a consultant to Unilever Research U.K. and the Japanese based companies Babcock Hitachi K.K and Hitachi Ltd. She has also served as a senior consultant to the global management and consulting company Accenture and has cooperated with the leading computational fluid dynamics developer Ansys

Fluent under the auspices its distributor in Southeastern Europe, Simtec Ltd. Her scientific work has been published in several archive journals and peer reviewed conferences and is well acknowledged by other researchers in the field. She has delivered several invited lectures in scientific and professional meetings worldwide.

**MR. KIRIL TEMELKOV**  
Member of the BoD and CEO,  
Bulgartransgaz EAD (Bulgaria)

Kiril Temelkov is born on August 13, 1974 in Gotse Delchev, Bulgaria. He has graduated from the University of National and World Economy in 1999 with major in "Economics and Management of Trade".

In 1998 he won a scholarship of Bulgargaz EAD and from the end of 1999 until 2008 worked in Bulgargaz EAD (Bulgartransgaz EAD after the unbundling of the company in 2007). In the period 2000-2008 he was the Director of the Trading Department. From 2008 to 2010 he worked as a management consultant on different energy projects.

In May 2010 he became the manager of "Nabucco - Bulgaria". From June 2011 he is Member of the Board of Directors and Executive Director of Bulgartransgaz EAD.

**MR. LAZAR PETROV**  
Financial Markets Expert, Energoremont  
Holding (Bulgaria)

Lazar Petrov is born in Sofia in 1984. He graduated his economic education in Freiburg, Germany. During his studies, he concentrated on the energy sector. Later on he graduated from practical education programs in Germany, Luxembourg, and Bulgaria.

In 2009, in Spain, he graduated from a Business Development training program at Iberdrola, where he worked on a number of energy projects in Spain, Bulgaria, and Greece.

In 2011 Lazar Petrov joined the team of Energoremont Holding, where he prepares economic analyses and in the same time participates in the preliminary negotiations for a number of projects.

**DR. LUTZ LANDWEHR**  
Commercial Director, Trans Adriatic  
Pipeline AG (Switzerland)

Lutz Landwehr graduated from the University of Bamberg in 1999 with a degree in Business Administration. After working three years for KPMG in Düsseldorf and Nuremberg he went to the University of

Innsbruck for post graduate studies and received his Doctor in Financial Economics degree in 2006.

Mr. Landwehr joined E.ON Ruhrgas in 2006 as Head of Infrastructure Joint Ventures, responsible for commercial project management for national and international pipeline joint ventures. In 2008 Lutz became Head of Project Management/Pipeline Joint Ventures

North. His responsibilities included among others the Skanled Project and representing E.ON Ruhrgas as a deputy member in the Board of Directors of Swedegas AB. He was also responsible for preparation of E.ON Ruhrgas entry into the TAP project as the third shareholder, which was concluded in July 2010.

In January 2011 E.ON Ruhrgas seconded Lutz Landwehr to the Trans Adriatic Pipeline project as Manager for Strategy & Management Support. In March 2012 Dr. Landwehr was appointed Commercial Director of TAP responsible for obtaining necessary permits and negotiating contracts for the pipeline project. He is now based in Baar, Switzerland, the company's headquarters.

**DR. MARIN BELOEV**  
President, Consortium KZU Holding Group  
(Bulgaria)

Dr. eng. Marin Beloev is born on February 12, 1939, in Stroevo (Plovdiv municipality) in a family of teachers. He graduated from Technical University - Sofia in 1962 with a major in Technology of Machine Engineer-

ing and Metals.

In 1966 he founded and managed for many years as a director and general director the scientific-production company Control-Welding Devices (KZU) Sofia. He was an active participant in the construction of NPP Kozloduy, all TPPs, HPPs, including PSHPP Chaira, the chemical and petrochemical industry, the gas pipeline between USSR and Bulgaria, the cement industry, etc.

He graduated a doctoral degree (1973) in the globally-renowned Electric Welding Institute E.O.Paton in Kiev, Ukraine.

He is laureate of many state awards. Currently he is President of Consortium KZU Holding Group. He was chairman of the Bulgarian Welding Union until 2008, and currently is its co-chairman. An active member of IIW and EWF.

**MR. MICHAEL WELCH**  
Industry Marketing Manager, Oil & Gas,  
Siemens Energy Oil & Gas (UK)

Mike graduated in 1986 from Loughborough University of Technology with an Honours Degree in Electrical & Electronic Engineering. He started his career as a Commissioning Engineer with ABB, before taking up a

role at what was then Ruston Gas Turbines in Lincoln, UK, as an Electrical Applications Engineer, working on both Cogeneration and Oil & Gas projects.

He then moved into Sales & Marketing of gas turbines in Cogeneration applications with Dale Power Systems, before returning to Lincoln to take up a role in the Business Development team as Market Development Manager for Cogeneration and alternative fuel applications, and presented several papers at international conferences on these subjects.

Following the purchase of the Lincoln facility by Siemens, Mike joined the Oil & Gas Business Development group working on strategy and market analysis, and has recently been appointed to take on the role of Industry Marketing Manager, Oil & Gas, within

the business unit responsible for both gas and steam turbines. Mike is a Member of the Institute of Engineering & Technology (MIET).

**DR. NICOLAS KATCHAROV**  
CEO, EDF Fenice SpA (Italy)

Mr Katcharov is born in Sofia, Bulgaria, in 1964. He took his Master in Electronics degree in 1990 and after having exercised as a Professor of Physics at Limoges University for 4 years, received a PhD in Physics.

In 2004, he started his industrial career at the R&D division of Gas de France in Paris. In 2000 he joined EDF as Development Director for Central & Eastern Europe and CIS. In 2006 he was appointed as CEO and Chairman of Budapest Power Plants Ltd., a power and heat generation company providing heating for the Hungarian Capital.

In September 2011 he took his assignment as Chief Executive Officer at EDF Fenice SpA, a leading EU energy services and environmental company in Turin, Italy.

**MR. OGNYAN PAVLOV**  
Manager, CNG Module Systems OOD,  
general representative of GNC Galileo  
(Bulgaria)

Ognyan Pavlov is born in 1979 in Veliko Tarnovo. He graduates high-school with profile "History of Art" and later higher education in the University of National and World

Economy with majors Economics and Law.

Mr. Pavlov is manager of CNG Module Systems, exclusive partner for Bulgaria of the Argentinean company GNC Galileo - specialized in the production of equipment for natural gas compressor stations: compressor systems, dryers, extension groups, gas pumps, etc. He is manager of the "European Funds and Financing" Department at CNG Maritza OOD. CNG Maritza is a company, which implements in Bulgaria and Europe the technology, developed by Galileo, Argentina, called "Virtual Pipeline". The technology is copyrighted at the Patent Department of Bulgaria. The CNG Maritza Project includes the distribution of natural gas to locations away from the transmission grid in the municipalities of Karlovo, Chepelare, Smolyan, Panagyurishte, Strelcha, Hisarya, Zlatitsa, Pirdop, Koprivshitsa, Pavel Banya. The project is co-financed by the Kozloduy International Decommissioning Support Fund (KIDSF) through the European Bank for Reconstruction and Development (EBRD): KIDSF-GA-021.

# GAS & POWER BUSINESS FORUM 2012

## ABOUT US

Gas & Power Business Forum 2012 is organized by G&P Solutions Ltd. with the event management support of Public Services Ltd. (Publics.bg)

G&P Solutions Ltd. is an energy consulting group with consulting services, which are custom-tailored for asset owners, investors, financial and state institutions, aiming to estimate their energy strategies and energy projects, as well as to evaluate certain energy projects that need financing.

Thanks to our skills, professional expertise and experience in the energy sector we can offer energy market analysis, business and financial modeling, company licensing, technology & equipment selection, green field site selection, approvals management, new project configuration, existing projects optimizations and project's financing opportunities development.

**We provide consulting services made by a team of engineers and experts specialized in:**

- Energy legislation and Energy regulation
- Company licensing
- Price-formation of the utilities energy services and energy producers
- Technical design (Gas & Power)
- Environmental impact assessment reports
- Permissions & Approvals of the project design
- Gas transmission pipelines, gas distribution networks and regulation stations design
- Coal and gas fired energy plant operation and design
- Co-generation plants design
- Renewable sources – wind power, photovoltaic, waterpower projects
- Independent engineering reports for Gas and Power projects
- Complete set of documents preparation in accordance with Bulgarian legislation
- Due diligence
- Risk assessment

### **G&P SOLUTIONS LTD.**

Address: 202, Tzar Simeon Street, 1000 Sofia, Bulgaria

Phone: +359 2 421 92 13

Mobile: +359 888 329 496

Publics.bg is an online media product of Public Services Ltd. The company was founded in January 2010 with the mission to develop knowledge in the field of energy, public services and utilities. The team of Public Services has worked on numerous projects and products in diverse sectors of public services. The company also works as an exclusive partner with Uconomics Ltd, the publisher of the Bulgarian B2B magazines "Utilities" and "Facilities", for their editorial and advertising management, and prepared printed editions alone or with partners, e.g. "Facility & Property Management Catalog" (in 2011 and 2012), "Energy Audit & Certification Catalog 2011", "Energy Efficiency" Special Edition for Economedia, etc.

The team of the company has worked on different projects and products in the field of public services. The partners in the company have experience in the following services: media, events planning and management, research and consultancy projects, etc. in the following sectors: energy, infrastructure, and public services. The team of the company is also involved in teaching at the Faculty of Economics and Business Administration of Sofia University in the master programmes "Economics and Management of Energy, Infrastructure, and Utilities" and "Facilities Management".
